Subject: Shut Down of system at Arkwood...

Folks,

Hope you're doing well...

I'm a little confused...re-reading the reports sent by ADEQ and McKesson...

(See attached file: 9382261.pdf) (See attached file: 9382258.pdf)

#9382258 is a monthly progress report for July 2012 from McKesson...under Roman Numeral III (Projected Activities; August) "the injection of non-ozonated water will be discontinued for one year to evaluate for rebound effects..."

#9382261 is a Groundwater Remediation Summary for June 2012 dtd Sept. 12, 2012...first paragraph; "recommends discontinuation of the non-ozonated water injection for six months..."

I thought, before Mr. Tzhone left when we all had a conference call...that all parties agreed to a one year discontinuation, with monthly sampling, of non-ozonated water.

Please clarify...
thank you
v/r
Ruben Moya
